What are Little Shapers Activity Classes?

The club provides fun exercise classes designed for children which are particularly beneficial to younger children. Key PE learning elements are hidden within fun games, relays and circuits, all to music tracks that kids love. We help children to develop confidence, co-ordination, flexibility, muscular strength and overall cardiovascular fitness. A great club especially for children that might shy away from other sports.

If you would like some more information before joining us please don't hesitate to call or text Nadine on 07791 942341.
